

SENCORE®**Means Success In Electronic Servicing****tech**
tips**CM125/2000/CM2125/CM2220**

- 183 Learning to Use the CM2000 Computer Monitor Analyzer
- 184 Overview of Computer Monitors
- 185 Programming Sync Signal Timing Parameters
- 191 Connecting the CM2000 to a Computer Monitor
- 192 Testing Composite NTSC Monitors
- 195 Troubleshooting Monitor High Voltage Regulators
- 196 Using the CM2000's MULTIBURST PATTERN

CP291/5000/5001

- 239 Calibrating a CRT Display's White Balance with the Sencore CP291 Color Analyzer
- 240 Calibrating a Projection Display's White Balance with the Sencore CP291 Color Analyzer
- 241 Transferring Data to the Sencore CP291 ColorPro Report and Using the Report Software
- 245 Understanding Color Display Calibration

CR70/CR7000

- 145 Understanding How CRTs Work and How They are Numbered
- 206 Tips for Using the CR7000 "BEAM-RITE"
- 226 Determining the Setup of CRTs not Listed in the CR70 Setup Book
- 238 How to Test Projection CRTs with your CR7000 "Beam-Rite"

CVA94

- 229 How to Localize Video Camera Problems with the CVA94

FS73/FS74A

- *172 How to Tune to any Channel with the FS73 and FS74A
- 173 Using the FS74A Video Output Jack

General

- 203 Understanding Switch Mode Power Supplies
- 204 Identifying Television SMPS Problems
- 205 Troubleshooting SMPS Problems (PWM Type)
- 228 Understanding How Color Video Cameras Work

HA2500/HA325

- 219 Understanding the HA2500 Horizontal Output Load
- 220 Interpreting the HA2500 Load Tests Readouts
- 221 Troubleshooting with the HA2500's Horizontal Output Load Tests
- 223 Understanding the HA2500's Horizontal Driver Test
- 224 Understanding the HA2500's Dynamic "METER" Tests
- 225 Understanding the HA2500's Substitute B+ Supply
- 230 Understanding and Using the HA2500's Sub Drives
- 236 Understanding Horizontal Output Stages of Computer Monitors
- 243 Testing Non-Typical Horizontal Output Stages with the HA325 Load Test
- 244 Testing a Mitsubishi Projection TV with the Sencore HA325 Load Tests

IB78

- *174 Using the IB78 RS232 Interface Accessory

LC101/102/103 Z Meters

- 101 Interpreting the LC102 "AUTO-Z" Readings
- 102 Why Z Meters Read Electrolytics Different Than Bridges
- 104 Understanding ESR in Capacitors
- 105 Understanding Dielectric Absorption
- 106 Learning to use the LC102 "AUTO-Z"
- 112 More Uses of the LC102 "AUTO-Z" Power Supply
- 116 Testing Flybacks and Yokes with the Ringer Test
- 125 How SCRs and Triacs Fail and How to Test Them
- 126 Understanding the Ringing Test
- 134 Testing Ceramic Capacitors with your Z Meter
- 137 Solving Capacitor Troubles with you Z Meter
- 138 Testing Cables with the LC102 "AUTO-Z"
- 139 Testing Non-Polarized Electrolytic Capacitors
- 140 How to Test Industrial SCRs and Triacs
- 147 How to Find Defective Coils with the LC102 "AUTO-Z"
- 169 Why the Z Meter Stop Testing Alarm Provides Safe Capacitor Analyzing
- 170 How to Reform Electrolytic Capacitors
- 205 Troubleshooting SMPS Problems (PWM Type)

Z Meters (continued)

- 217 Complete Flyback/IHVT Testing
- 232 Understanding the LC103's In-Circuit Capacitor Test

PR57/570

- 146 Servicing Hot Chassis and Performing the Leakage Test with Your PR57 "POWERITE"®
- 205 Troubleshooting SMPS Problems (PWM Type)

SC61/SC3080/SC3100

- 108 Setting VCR Head Switching
- 109 Testing Micoprocessors with the SC61 Waveform Analyzer™
- 118 How to Analyze the Horizontal Output Pulse
- * 135 How to Set VCR FM Modulator Frequencies
- * 136 How the PPV Test Finds Interfering Signals Missed
- 153 Troubleshooting Timing Circuits and Counters
- 155 Understanding and Using the Vector and Z Functions
- 159 Five Step Troubleshooting Method Solves VCR Safety Circuit Problems in Minutes
- * 160 How to Troubleshoot TV Blanking Circuits
- 164 How to Analyze Digital Waveforms
- 165 How to Troubleshoot VCR Sensors
- 171 How to Service Digital Waveforms
- * 176 How VCR Servos Work
- 199 How to Use the SC3080 Waveform Analyzer
- 204 Identifying Television SMPS Problems
- 218 Learning to Use the SC3100 "AUTO TRACKER"

ST65/ST66

- 213 Understanding MTS

SL750

- 216 Understanding and Using "On Channel" Tests

SL754

- 222 Collecting and Printing Data with the Channelizer

TVA92

- 116 Testing Flybacks and Yokes with the Ringer Test
- * 142 How to Test CRT Anode Voltage
- 207 Understanding the TV Horizontal Output Stage
- 208 Making Horizontal Output Dynamic Measurements
- 209 Understanding the TVA92 Horizontal Output Load Test
- 210 Understanding the TVA92's Horizontal Output Device Sub and Drive
- 211 Troubleshooting with the TVA92's Horizontal Output Load Test
- 212 Replacing the Subbing Transistor

- 215 Understanding Functional Analyzing
- 231 The TVA92's Horizontal Output Tests
- 233 Understanding and Testing TV Vertical Yokes
- 235 Analyzing the RCA TX81/82 Horizontal Output Stage

VA62/VA62A

- * 114 Learning to Use the VA62A Universal Video Analyzer
- 116 Testing Flybacks and Yokes with the Ringer Test
- 117 Testing High Voltage Circuits with the VA62A
- * 120 Troubleshooting Sandcastle Problems
- 126 Understanding the Ringing Test
- * 135 How to Set VCR FM Modulator Frequencies
- * 142 How to Test CRT Anode Voltage
- 148 Understanding the 1VPP Composite Video Signal
- * 150 Understanding your VA62A Video Patterns
- * 160 How to Troubleshoot TV Blanking Circuits
- * 161 How to Troubleshoot TV Color Problems
- * 166 Solving TV Audio Problems with the VA62A
- 171 How to Service Digital Television
- * 176 How VCR Servos Work
- * 178 Testing Digital TV Tuners
- 201 Understanding Video Comb Filters

VC93

- 108 Setting VCR Head Switching
- 186 Testing VCR Servos with the VC93
- 187 Testing Capstan Servos with the VC93
- 188 Testing Drum Servos with the VC93
- 189 Comparison of VCR Formats
- 190 How VCR Hi-Fi Stereos Work
- 193 Troubleshooting VCR Luminance Circuits
- 194 Troubleshooting "Bad Head" Symptoms with the VC93 All Format VCR Analyzer
- 197 Learning to use the VC93
- 198 Troubleshooting VCR Chroma Circuits using the VC93
- 228 Understanding How Color Video Cameras Work

VG91

- 148 Understanding the 1VPP Composite Video Signal
- 200 Understanding the VG91 Bar Sweep Patterns
- 201 Understanding Video Comb Filters
- 202 Servicing Video Comb Filters
- 213 Understanding MTS
- 214 Learning to use the VG91
- 234 Adjusting the RCA/GE CTC175/176/177 Chassis with the VG91 Universal Video Generator

VP300/301/400/401/402/403

- 242 Using the VP300 to Adjust a Display's User Controls

* Marked items are not available in electronic format

Capacitor/Inductor Analyzing

- 101 Interpreting the LC102 "AUTO-Z" Readings
- 102 Why Z Meters Read Electrolytics Different Than Bridges
- 104 Understanding ESR in Capacitors
- 105 Understanding Dielectric Absorption
- 106 Learning to Use the LC102 "AUTO-Z"
- 112 More Uses of the LC102 "AUTO-Z" Power Supply
- 116 Testing Flybacks and Yokes with the Ringer Test
- 125 How SCRs and Triacs Fail and How to Test Them
- 126 Understanding the Ringing Test
- 134 Testing Ceramic Capacitors with your Z Meter
- 137 Solving Capacitor Troubles with your Z Meter
- 138 Testing Cables with the LC102 "AUTO-Z"
- 139 Testing Non-Polarized Electrolytic Capacitors
- 140 How to Test Industrial SCRs and Triacs
- 147 How to Find Defective Coils with the LC102 "AUTO-Z"
- 169 Why the Z Meter Stop Testing Alarm Provides Safe Capacitor Analyzing
- 170 How to Reform Electrolytic Capacitors
- 232 Understanding the LC103's In-Circuit Capacitor Test

Computer Monitor Analyzing

- 183 Learning to Use the CM2000 Computer Monitor Analyzer
- 184 Overview of Computer Monitors
- 185 Programming Sync Signal Timing Parameters
- 191 Connecting the CM2000 to a Computer Monitor
- 192 Testing Composite NTSC Monitors
- 195 Troubleshooting Monitor High Voltage Regulators
- 196 Using the CM2000's MULTIBURST PATTERN
- 219 Understanding the HA2500 Horizontal Output Load Test
- 220 Interpreting the HA2500 Load Tests Readouts
- 221 Troubleshooting with the HA2500's Horizontal Output Load Tests
- 223 Understanding the HA2500's Horizontal Driver Test
- 224 Understanding the HA2500's Dynamic "METER" Tests
- 225 Understanding the HA2500's substitute B+ Supply
- 230 Understanding and Using the HA2500's Sub Drives
- 236 Understand the Horizontal Output Stages of Computer Monitors

CRT Analyzing

- 145 Understanding How CRTs Work and How They are Numbered
- 206 Tips for Using the CR7000 "BEAM-RITE"

- 226 Determining the Setup of CRTs Not Listed in the CR70 Setup Book
- 238 How to Test Projection CRTs with Your CR7000 "Beam-Rite"

General

- 112 More Uses of the LC102 "AUTO-Z" Power Supply
- 138 Testing Cables with the LC102 "AUTO-Z"
- 145 Understanding How CRTs Work and How They are Numbered
- 148 Understanding the 1 VPP Composite Video Signal
- * 174 Using the IB78 RS232 Interface Accessory
- 184 Overview of Computer Monitors
- 189 Comparison of VCR Formats
- 190 How VCR Hi-Fi Stereo Works
- 203 Understanding Switch Mode Power Supplies
- 204 Identifying Television SMPS Problems
- 205 Troubleshooting SMPS Problems
- 213 Understanding Multichannel Television Sound (MTS)
- 215 Understanding Functional Analyzing
- 217 Complete Flyback/IHVT Testing
- 228 Understanding How Color Video Cameras Work
- 243 Testing Non-Typical Horizontal Output Stages with the HA325 Load Test

RF/CATV Analyzing

- * 172 How to Tune to Any Channel with the FS73 and FS74A
- 173 Using the FS74A Video Output Jack
- 216 Understanding and Using "On Channel" Tests
- 222 Collecting and Printing Data with the SL754D Channelizer

Television Analyzing

- 109 Testing Microprocessors with the SC61 Waveform Analyzer™
- * 114 Learning to Use the VA62A Universal Video Analyzer
- 116 Testing Flybacks and Yokes with the Ringer Test
- 117 Testing HV Circuits with the VA62A
- 118 How to Analyze the Horizontal Output Pulse
- * 120 Troubleshooting Sandcastle Problems
- * 142 How to Test CRT Anode Voltage
- 148 Understanding the 1VPP Composite Video Signal
- * 150 Understanding Your VA62A Video Patterns
- * 160 How to Troubleshoot TV Blanking Circuits
- * 161 How to Troubleshoot TV Color Problems
- * 166 Solving TV Audio Problems with the VA62
- 171 How to Service Digital Television
- * 178 Testing Digital TV Tuners
- 200 Understanding the VG91 Bar Sweep Patterns
- 201 Understanding Video Comb Filters

* Marked items are not available in electronic format

TV Analyzing (continued)

- 202 Servicing Video Comb Filters
- 204 Identifying Television SMPS problems
- 207 Understanding the TV Horizontal Output Stage
- 208 Making Horizontal Output Dynamic Measurements
- 209 Understanding the TVA92 Horizontal Output Load Test
- 210 Understanding the TVA92's Horizontal Output Device Sub and Drive
- 211 Troubleshooting with the TVA92's Horizontal Output Load Test
- 212 Replacing the Subbing Transistor
- 213 Understanding MTS
- 214 Learning to Use the VG91
- 215 Understanding Functional Analyzing
- 216 Understanding and Using "On-Channel Tests" C/N and HUM
- 231 The TVA92's Horizontal Output Tests
- 233 Understanding the Testing TV Vertical Yokes
- 234 The TCA/GE CTC175/176/177 Chassis with the VG91 Universal Video Generator
- 235 Analyzing the RCA TX81182 Horizontal Output Stage
- 244 Testing a Mitsubishi Projection TV with the Sencore HA325 Load Tests

VCR/Camcorder Analyzing

- 108 Setting VCR Head Switching
- * 135 How to Set VCR FM Modulator Frequencies
- 159 Five Step Troubleshooting Method Solves VCR Safety Circuit Problems in Minutes
- 165 How to Troubleshoot VCR Sensors
- * 176 How VCR Servos Work
- 186 Testing VCR Servos with the VC93
- 187 Testing Capstan Servos with the VC93
- 188 Testing Drum Servos with the VC93
- 189 Comparison of VCR Formats
- 190 How VCR Hi-Fi Stereos Work
- 193 Troubleshooting VCR Luminance Circuits
- 194 Troubleshooting "Bad Head" Symptoms with the VC93 All Format VCR Analyzer
- 197 Learning to Use the VC93
- 198 Troubleshooting VCR Chroma Circuits Using the VC93
- 228 Understanding How Color Video Cameras Work
- 229 How to Localize Video Camera Problems with the CVA94

Video Calibration

- 239 Calibrating a CRT Display's White Balance with the Sencore CP291 Color Analyzer
- 240 Calibrating a Projection Display's White Balance with the Sencore CP291 Color Analyzer
- 241 Transferring Data to the Sencore CP291 ColorPro Report and Using the Report Software
- 242 Using the VP300 to Adjust a Display's User Controls
- 245 Understanding Color Display Calibration

Waveform/Circuit Analyzing

- 108 Setting VCR Head Switching
- 109 Testing Microprocessors with the SC61 Waveform Analyzer™
- 117 Testing HV Circuits with the VA62A
- 118 How to Analyze the Horizontal Output Pulse
- * 135 How to Set VCR FM Modulator Frequencies
- * 136 How the PPV Test Finds Interfering Signals Missed
- 153 Troubleshooting Timing Circuits and Counters
- 155 Understanding and Using the Vector and Z Functions
- 159 Five Step Troubleshooting Method Solves VCR Safety Circuit Problems in Minutes
- * 160 How to Troubleshoot TV Blanking Circuits
- 164 How to Analyze Digital Waveforms
- 165 How to Troubleshoot VCR Sensors
- 171 How to Service Digital Television
- * 176 How VCR Servos Work
- 199 Learning to Use the SC3080 Waveform Analyzer
- 218 Learning to Use the SC3100 "AUTO TRACKER"

* Marked items are not available in electronic format
